

AI Agents

The case for cost saving

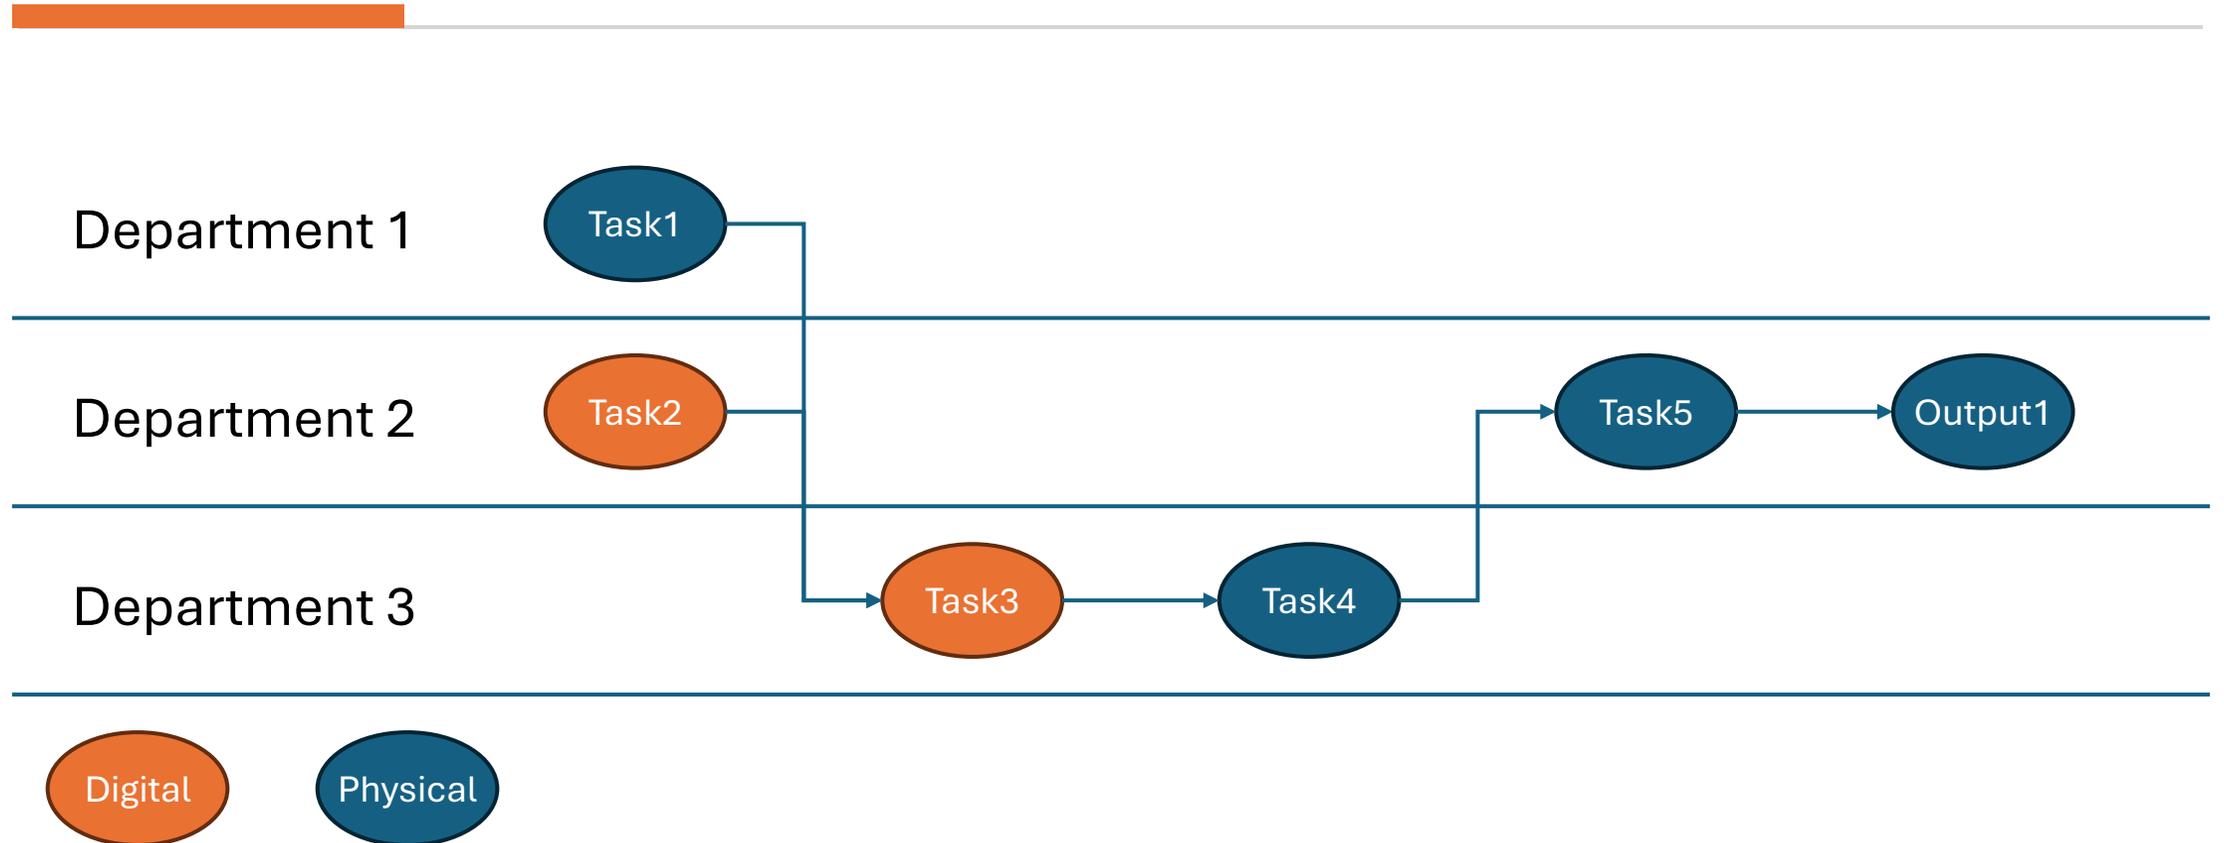

If you are
reading this,
you can
benefit from
AI agents

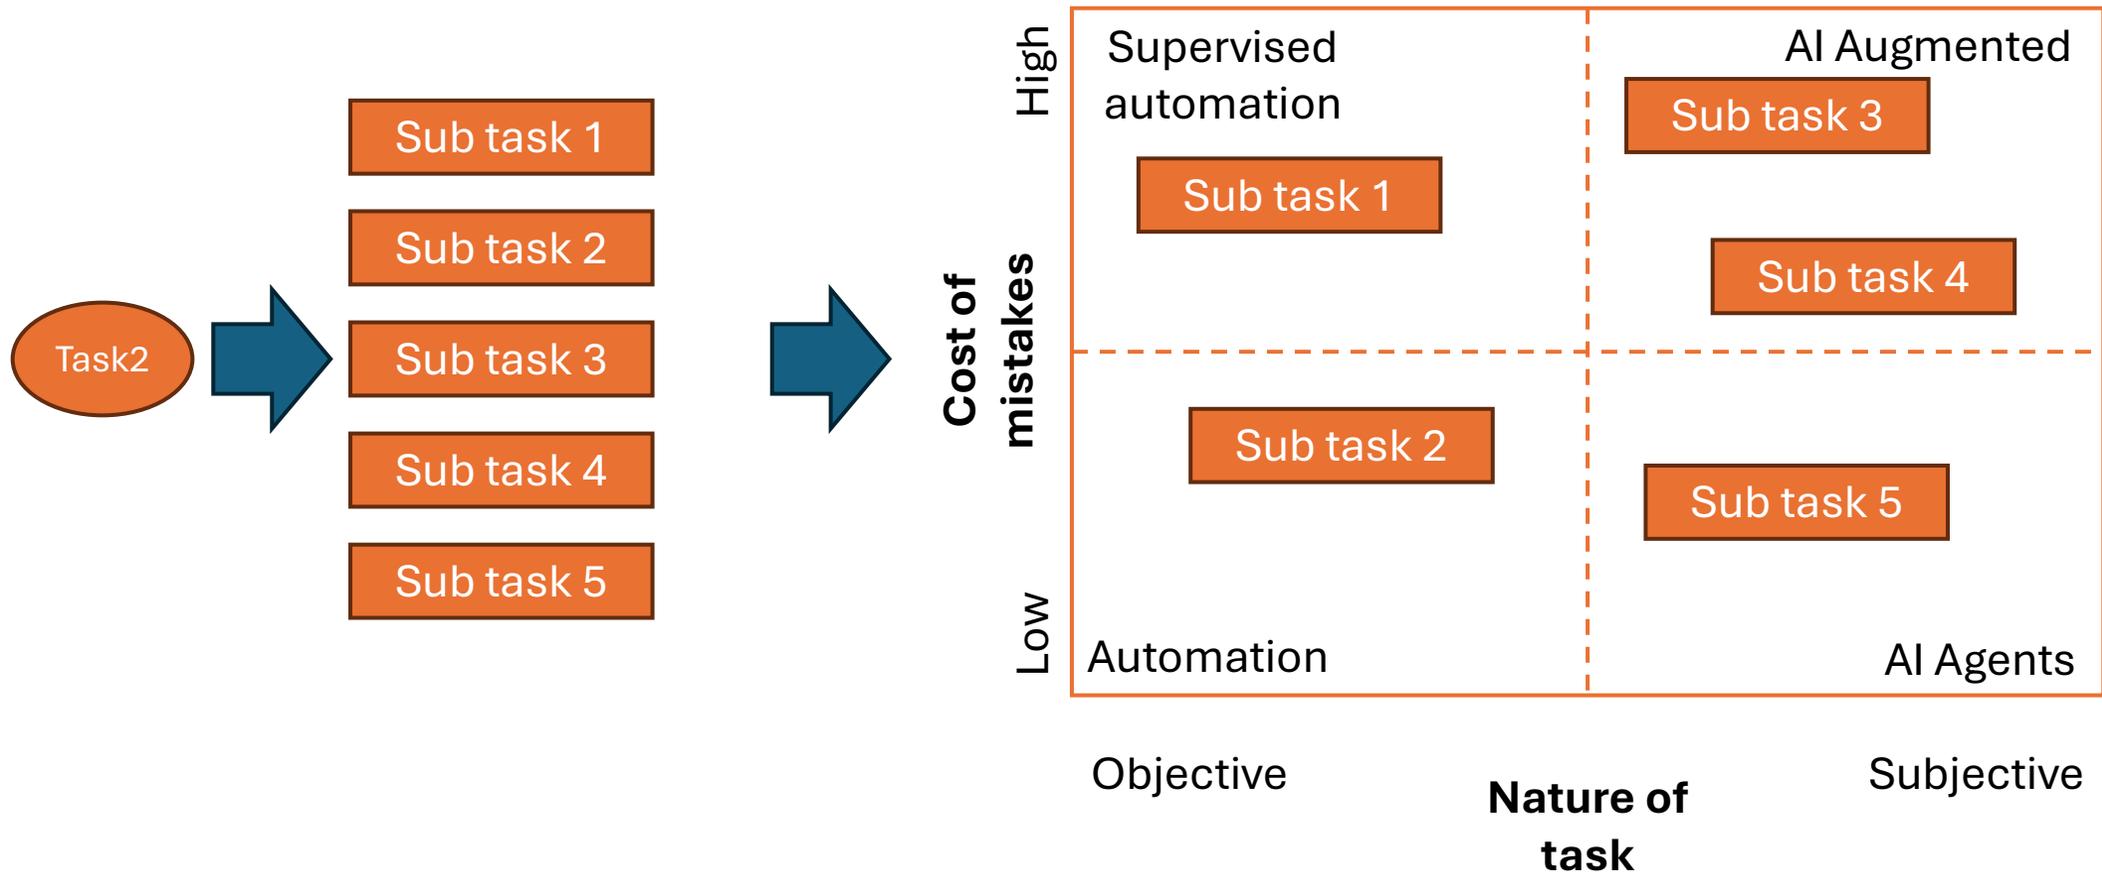

Operations involving
computers present
opportunities to:

- ↑ throughput
- ↓ cycle time
- ↓ cost

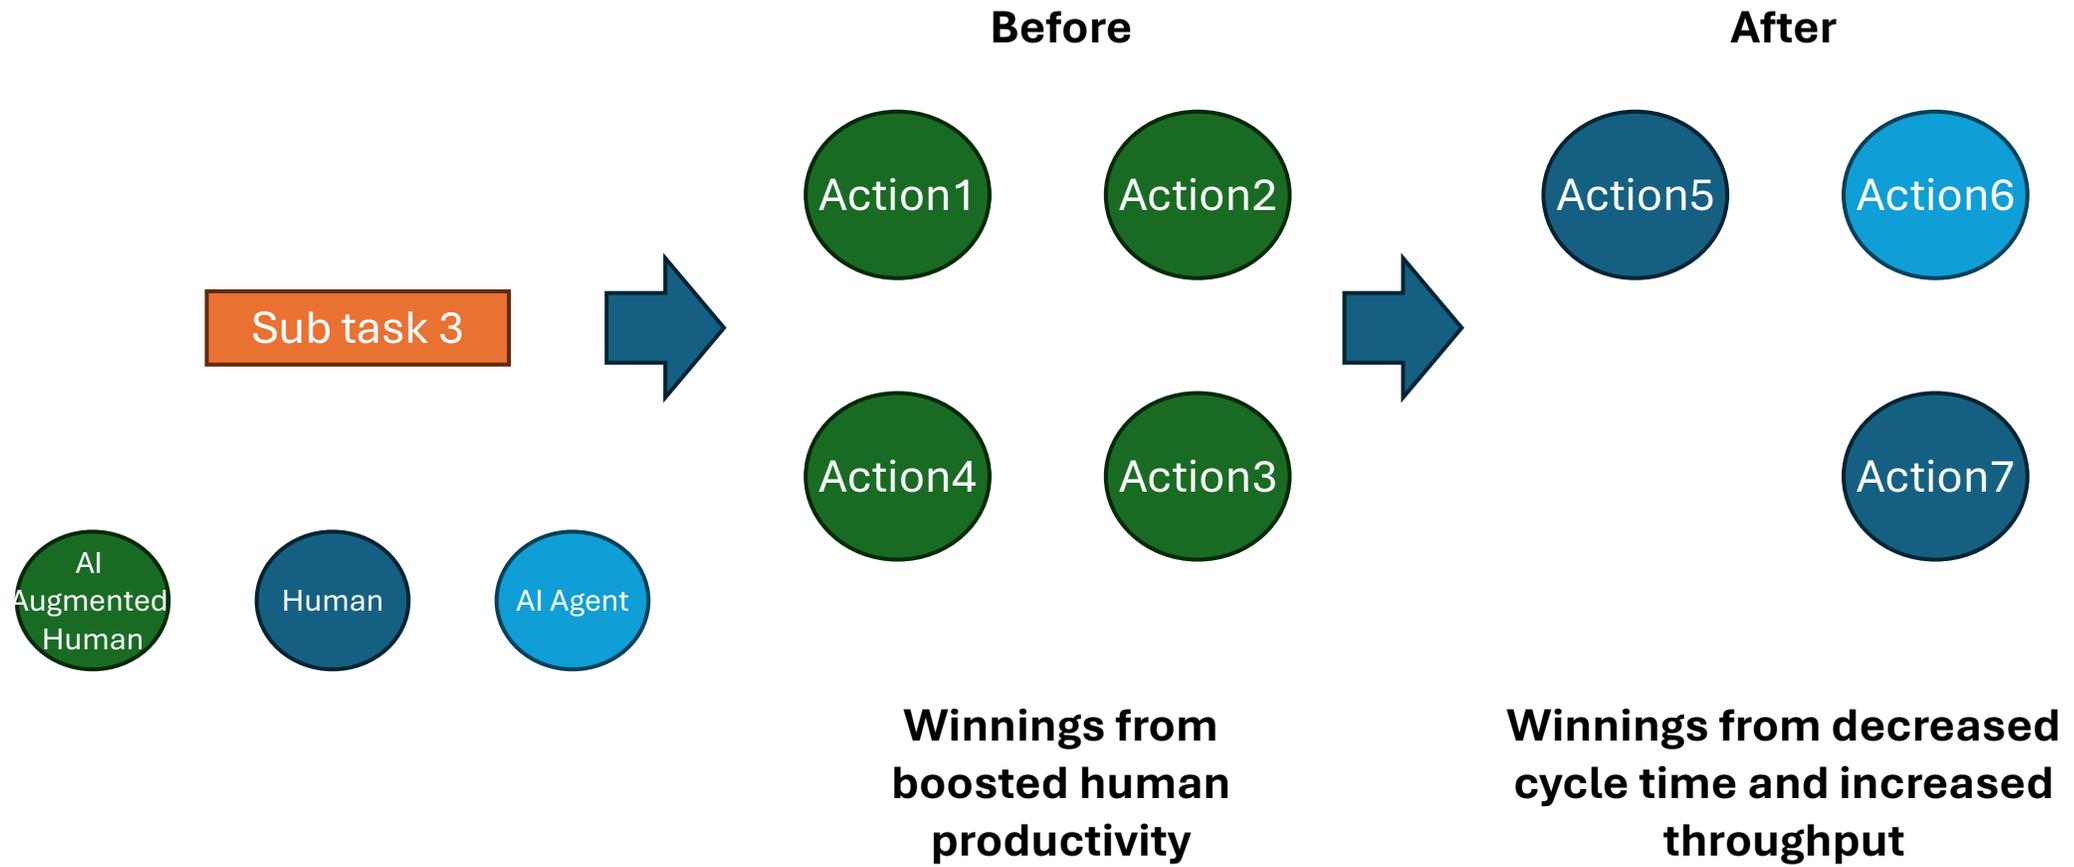

Every company can be broken down into streams of operational flows, ending with an output

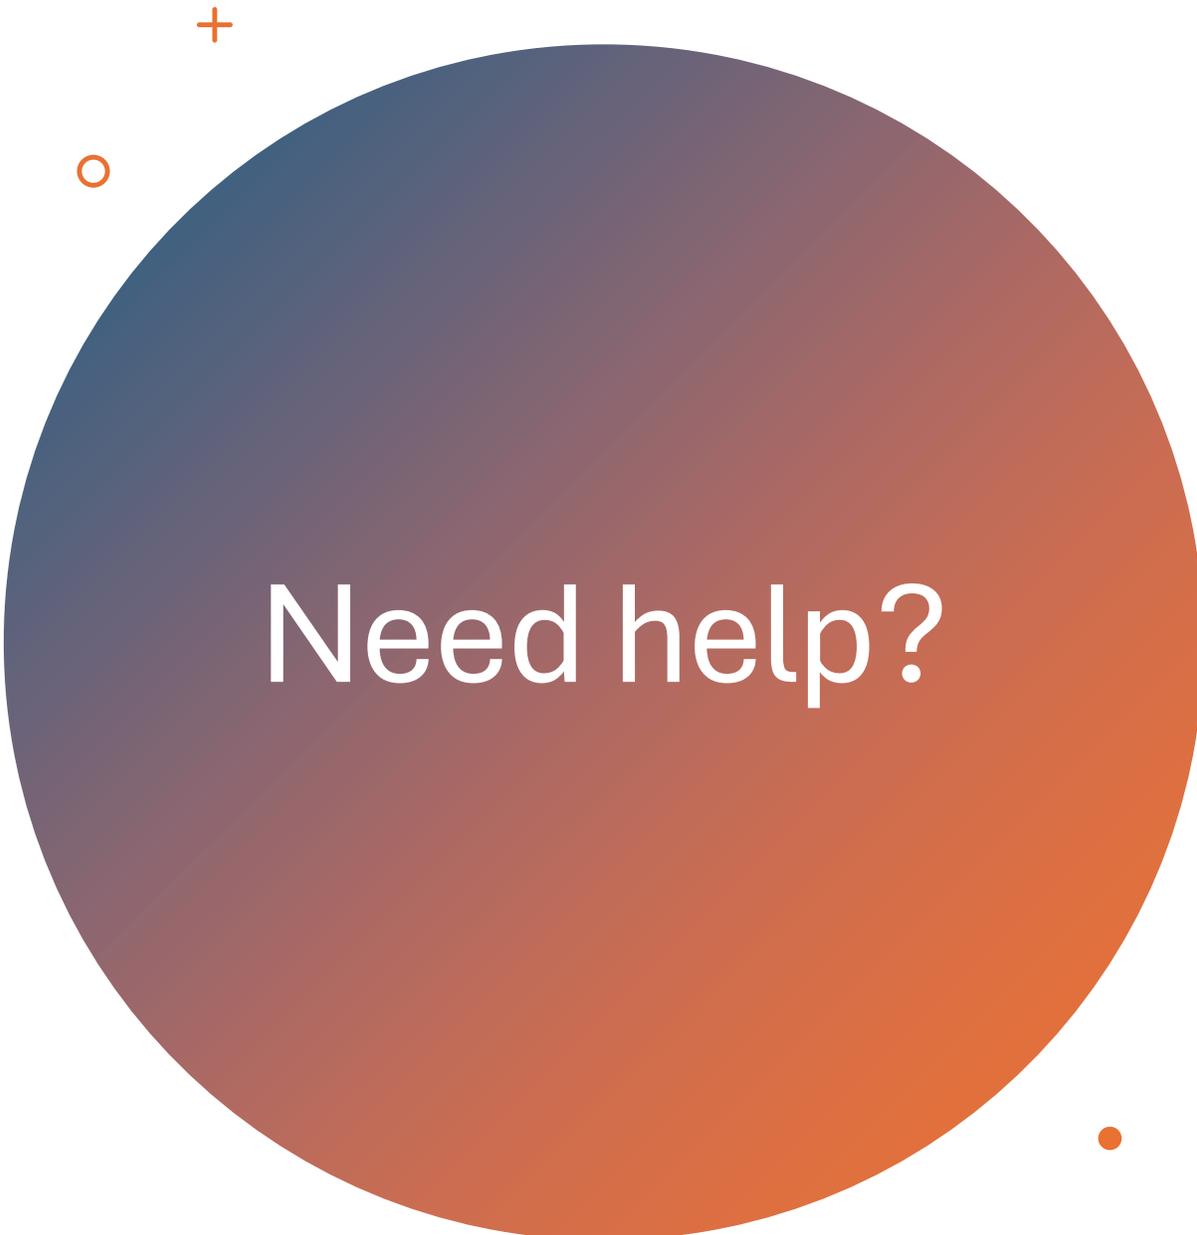

Most tasks performed with a computer can be automated or left to AI agents

AI augmentable tasks can be re-imagined further to get human input at the most critical parts only, saving time and money

Need help?

- Even very traditional industries can benefit from AI transformation
 - We have recently transformed an unprofitable book publisher into profitability
